

Download Empathy, Emotion And Education

Empathy is the capacity to understand or feel what another person is experiencing from within their frame of reference, that is, the capacity to place oneself in another's position. Definitions of empathy encompass a broad range of emotional states. Adults tend to feel greater empathy for an individual when they perceive the individual to be similar to them. They also find it easier to empathize with someone who is familiar. Sympathy and empathy often lead to each other, but not always. Against Empathy from Boston Review. Most people see the benefits of empathy as too obvious to require justification. - Empathy, Emotion And Education
