Software Solutions. Our software consultants will assist you in selecting and maintaining the applications you need to run your business. And if no off-the-shelf software solution fits your needs, our developers will work with you to create the custom business software you need. Integrated Cannabis is purchasing a 200 acre farm in Wisconsin. The farm has 160 tillable acres, leaving plenty of room for Green Houses and a CBD lab to process each harvest. Integrated Solutions: For a total integrated security management solution, Software House provides integration with various security and business applications that can be easily managed from the C•CURE platform. Our Integrated Solutions program brings together West's primary packaging, device, analytical, regulatory and contract manufacturing expertise in a single-source solution. - All Integrated Solutions
