Ear training or aural skills is a skill by which musicians learn to identify, solely by hearing, pitches, intervals, melody, chords, rhythms, and other basic elements of music. The application of this skill is analogous to taking dictation in written/spoken language. As a process, ear training is in essence the inverse of sight-reading, the latter being analogous to reading a written text aloud ...Avivo Teaching Artists have designed, developed, and implemented proven curricula in the areas of musicianship, computer musicianship, jazz musicianship, theory, solfège & rhythms, choral studies, improvisation, composition, and private instrumental study.
