2014 ACC/AHA Guideline on Perioperative Cardiovascular Evaluation and Management of Patients Undergoing Noncardiac Surgery  
Visiting Sick Kids Coming to Emergency Is it an emergency? Coming for surgery  
Pre-Operative Appointments Pre-Operative Preparation Program Talking to my children about surgery  
Ambulatory cardiac rehabilitation (CR) is not clearly described in this article. It is of value but is potentially problematic when there is no direct supervision by health care professional staff. In an observational study, Bartus and colleagues (2013) stated that embolic stroke is the most devastating consequence of AF. Exclusion of the LAA is believed to decrease the risk of embolic stroke. - Clinical Cardiac Electrophysiology : Perioperative Considerations
