

# Download Curry Leaf Plant Nutritional Information

The word "curry" has three different meanings. It can refer to a spice or spice mixture called "curry powder," the actual curry leaf, or it may refer to the dish "curry" that is cooked across many cultures and parts of the world. Roselle Roselle plant at Wave Hill, Bronx, New York, 2014, showing leaf, flower, bud and dark red calyces

Scientific classification; Kingdom: Plantae  
Moringa oleifera is the most widely cultivated species in the genus Moringa, the only genus in the plant family Moringaceae. Common names include moringa, drumstick tree (from the long, slender, triangular seed-pods), horseradish tree (from the taste of the roots, which resembles horseradish), and ben oil tree or benzoil tree (from the oil ... Allspice trees are evergreen medium sized, grow up to a height of 8 to 10 meters and with a slender upright trunk and smooth greyish bark. The male trees produce only few fruits. - Curry Leaf Plant Nutritional Information
