

Download Interqual Level Of Care Criteria Guidelines

InterQual Criteria. InterQual Criteria are objective and specific to better help ensure the most appropriate care and more consistent, defensible decision-making. The InterQual ® Level of Care products cover the continuum of medical care. The richness of clinical detail allows for consideration of an individual patient's severity of illness, comorbidities, and complications in the review process in real time. Editor's Note: Using Medical Necessity Criteria (MNC) and Level of Care (LOC) successfully requires constant attention, understanding, and on-going education. 5 InterQual Guidelines for InterQual Guidelines for Medical Necessity Utilized for Medicare patient Acute Care inpatient or Observation – – Severity of Illness (SI) - Interqual Level Of Care Criteria Guidelines
