Beginnings. Niccolo Tartaglia was born in the northern Italian city of Brescia in 1500. His birth name was Niccolo Fontana, but – as we'll see – he would become known as Tartaglia following a horrific attack he suffered in his childhood. Elements of what became physics were drawn primarily from the fields of astronomy, optics, and mechanics, which were methodologically united through the study of geometry. Yet we begin to see the limitations of each system. Point defense systems, railguns, coilguns, conventional guns, or even lasers, are power limited in this exchange. The Disney bomb, also known as the Disney Swish, officially the 4500 lb Concrete Piercing/Rocket Assisted bomb was a rocket-assisted bunker buster bomb developed during the Second World War by the British Royal Navy to penetrate hardened concrete targets, such as submarine pens, which could resist conventional free-fall bombs. - Stephen Murray Projectile Motion
